

Palm Beach Surgery Center is a *state of the art* Ambulatory Surgical Center, located on State Road 7/ 441 in the village of Wellington. Palm Beach Surgery Center currently occupies 7000 sq. ft adjacent to Palm Beach Gastroenterology Consultants for maximum convenience for both patients and doctors.

A variety of out patient procedures are performed in the facility such as:

- * **Colonoscopy**
- * **Gastroscopy**
- * **BRAVO (24 Hour pH Monitoring)**
- * **IRC (Infrared coagulation of Hemorrhoids)**

We also perform state of the art procedures including:

- * **Endoscopic Ultrasound (EUS) (Diagnosing & Staging Cancers)**
- * **ERCP**
- * **Capsule Endoscopy (Evaluating Small Bowel)**
- * **Endosuturing (For GERD/Heartburn)**

Palm Beach Surgery Center is dedicated to providing the best technology and service to its patients. In fact, it is the only Ambulatory Surgical Center offering Endoscopic Ultrasound (EUS) in the Palm Beach County.

Palm Beach Surgery Center provides a safe and friendly environment, with a highly qualified and dedicated staff. To add to its pride in quality care, it also employs full time anesthesiologists that administer and monitor all anesthesia care.

The facility has achieved national accreditation by the JCAHO, signifying this facility's commitment to maintaining high quality care for the patients. It is also certified by the State of Florida, AHCA and Medicare. All major insurances are accepted.

Palm Beach Gastroenterology Consultants, LLC

Why choose us?

Palm Beach Gastroenterology Consultants has been serving the residents of the western communities for over 10 years, providing cost-effective treatment tailored to meet each patient's individual needs. We communicate with the patient's personal physician to keep the physician up-to-date on the treatment plan and the patient's progress.

The physicians of Palm Beach Gastroenterology Consultants are all board certified gastroenterologists who remain dedicated to providing excellent and compassionate care for a wide array of gastrointestinal, liver, and biliary tract diseases. Physicians have access to the most cutting edge technology including Endoscopic Ultrasound (EUS), ERCP, Capsule Endoscopy, and Endocinch procedures.

Dr. Krishna Tripuraneni is a world-renowned physician specializing in Endosuturing - a minimally invasive procedure that treats symptomatic GERD. The procedure works by placing sutures at the lower esophagus, thereby, significantly improving symptoms of reflux and potentially eliminating the need for acid controlling medications.

Dr. Vikram Tarugu specializes in Endoscopic Ultrasound (EUS)-a technique that provides detailed ultrasound imaging of organs adjacent to the gastrointestinal tract. It is used to diagnose and stage several gastrointestinal malignancies such as pancreatic, esophageal and other gastrointestinal cancers.

The physicians of Palm Beach Gastroenterology Consultants are trained in the latest techniques to provide the best quality of care to its patients.
